**Re: Staff Report for LID 3 - SW 116<sup>th</sup> Place Street and Drainage Improvements**

The following is intended to provide information about Local Improvement District 3 – SW 116<sup>th</sup> Place Street and Drainage Improvements.

**Description**

Private property owners along SW 116<sup>th</sup> Place asked the City of Burien to work together to construct street and drainage improvements in and to SW 116<sup>th</sup> Place. The current drainage system includes both public and private runoff and would be better suited to be built to City of Burien Construction Standards. Once constructed, the drainage system will be dedicated to the City of Burien for future ownership and maintenance.

**Boundary**

Improvements will begin on SW 116<sup>th</sup> Place approximately 250' west of centerline at 30<sup>th</sup> Avenue Southwest. Please see the attached Metes and Bounds Description provided by Jonathan Becker, Project Manager for Duncanson Company, Inc and diagram showing the lots, tracts, and parcels of land and other property which will be specially benefitted by the proposed improvements.

**Estimated Cost**

The total cost of the proposed improvements is estimated to be \$68,000 which includes surveying services, design engineering, construction management, administration, and cost to replace the existing storm pipe. The proposed assessment against each property is estimated to be \$5,666.67, with an estimated annual payment of \$1,141.85 for 5 years. The actual assessments may vary from the estimated assessments as long as it does not exceed a figure equal to the increased true and fair value of what the improvements add to the property. The City Council may modify the years of pay back up to 20 years.

**Project Schedule**

The City would like to begin construction as early as July 2011 and the estimated completion date would be December 2011.
