**Subject:** RE: Requests in association with the proposed SMP that would revise the private Lake Burien shoreline to become Public Access

As a long time resident on Lake Burien, I am very concerned about protecting the health and environment of the lake. Elements of the revised SMP, if implemented, will seriously endanger the ecological balance of this small, shallow lake. Other lakes that have allowed public access have have been almost destroyed by millfoil brought in by transient boats. Lake Killarny is a prime example of millfoil encroachment. Residents of Lake Burien have a committment to the health of this very special lake, and allowing public access would take that process out of our hands and put the lake at risk. We enjoy a large variety of migrating birds who spend time on Lake Burien during migration. In addition we have resident eagles, osprey and other unique birds who depend on Lake Burien for their subsistance, which would be disrupted by public access. Please consider the requests made below.

Danna Siverts  
15709 14th Pl SW  
Burien, WA 98166  
206-246-5678

**The City of Burien is currently planning a SMP that as proposed would take private access on Lake Burien, a lake with abundant wildlife and minimal access limited to the private property owners residing there, and turn it into a high priority public access area.**

**I am against public access for this lake.**

- **I request that you do an EIS (Environmental Impact Study) before the proposed SMP goes to the City Council**
- I request you change wording in the Public Access *Policy* in draft SMP section 20.20.015 Public Access Policy 5 to read "**Highest priority should be placed on reaches without existing public access except for the Lake Burien reach because it cannot support the additional impact that public access would create.**" (the underlined portion is the revision)

CFTR: 03/08/10

- I request you revise the wording in the *regulation* for public access in draft SMP section 20.30.035 2. to read **"Public access improvements shall not result in a net loss of shoreline ecological functions. For any reach without existing public access, public access shall not be permitted unless it has been demonstrated that such use or access will not jeopardize the environment of the reach in question and will not interfere with pre-existing shoreline uses."** (the underlined portion is the revision)
- **The SMP once approved must not be devolved into other policy and regulation documents in City of Burien.** If it is devolved in that fashion, the future updates of the SMP will not be able to be done against a single document. Also baseline affects and effects will not be easily assessed.
- **The City MUST commit in the SMP to a scientific baseline collection of water quality, flora and fauna inventories both resident and migratory over 3 years or more in order to have a solid baseline of conditions and standard variations before they can ever bring a park to the Lake.**
- **The City Planner is not well versed on environmental issues or the science.** Therefore the SMP should not be adjudicated in policies or regulations. There are other municipalities that have dealt with this same issue and they have defined requirements for the person in the role of SMP Administrator/Director

Thank you

January 20, 2010

Planning Commission  
City of Burien  
400 SW 152nd St Suite 300  
Burien, WA 98166

Dear Commissioners:

I wish to convey to you some of my thoughts regarding the draft Shoreline Master Program (SMP) update.

My understanding is that the overarching purpose of the SMP is to insure “no net loss of shoreline ecological functions and processes...” (Section 20.20.005 General Goals and Policies). In other words, to preserve the environment surrounding water bodies and shorelands. I fail to see how increasing the amount of public access will preserve or improve the ecology of Lake Burien or Puget Sound. It seems to me that more public access would do the opposite of that. I was pleased that questions regarding the impact to the environment were already brought up during the discussion period at your meeting on January 12, 2010. I hope you will actively pursue this issue. I believe that using common sense to evaluate some of the provisions in the draft SMP relating to public access will lead you to ask more questions about these issues, in relation to providing maintenance and security, and you will determine that public access will negatively impact the environment of the shoreline.

When I look at the process for updating this SMP, it seems like the Citizens Advisory Committee has tried to subvert the intent of the SMP. A couple of citizens who do not reside in Burien were appointed to the committee and concentrated on advancing the public access issue. It is understandable that people would like to access the water, and Burien already has a wonderful location to do so – Seahurst Park. Apparently this wasn't good enough for these citizens and so they focused on getting public access to Lake Burien. It astounds me that the negative impacts of this access were not seriously considered or studied – the negative impacts to both the environment and the property owners residing on the lake. The water quality of the lake is currently very good and is monitored well and maintained by the residents. I would hate to see one irresponsible fisherman ruin that by bringing milfoil to Lake Burien on a boat that's been on Lake Washington or a number of other local lakes.

I urge you to re-evaluate the sections of the draft SMP relating to public access, starting with section 20.20.015 of the goals, and to delete language that will lead to negative impacts to the ecological function of Lake Burien and Puget Sound.

Sincerely,

*Kathi Skarbo*

Re: Shoreline Master Program Update

It has come to my attention that a change was made to the Shoreline Master Program between an earlier draft and the final draft that I believe is a significant change.

I attended the Shoreline Advisory Committee meeting on Sept. 23, 2009 where a draft of Chapter IV (Policies and Regulations), dated Sept. 1, was distributed. Please see the reverse side of this sheet to see Section 20.30.035 Public Access, paragraph 2.d. (page IV-8 in the final draft) which read:

***“Public access shall be required for all new shoreline development and uses, except for water dependent uses and individual single family residences not part of a development planned for more than four parcels.”***

I understood this to mean public access is required if a property is developed into 5+ lots. If my parcel can only be divided into 4, the paragraph does not apply to me. A committee member requested it be changed to “development planned for more than five parcels,” but someone stated that the language came directly from a WAC. (That is correct – WAC 173-26-221 section 4 Public Access.) The Meeting #6 Summary reflects that the committee chose to “keep the language as proposed.”

A few days ago, I came back to the same paragraph in the final draft, dated 11/17/2009. It now reads:

***“Public access shall be required for all new shoreline development and uses, except for; water dependent uses, individual single family residences and subdivisions of less than four parcels.”***

Now public access is required if a property is developed into 4+ lots – more restrictive and *a significant change*.

I have these three questions:

1. How, when, and why was this paragraph changed? How did “more than four parcels” become “less than four parcels?”
2. Did the Advisory Committee have an opportunity to review the final document and approve it?
3. Does the final document *accurately* represent the recommendations of the Advisory Committee?

I encourage the Planning Commission to ask these questions and share the answers with the public. And I respectfully request that the paragraph be changed back to the original intent that was approved by the Advisory Committee.

Thank you.

Re: Shoreline Master Plan draft update

I recently spoke to you about section 20.30.035.2.d of the SMP under Public Access. My comments are not included in the table that staff provided to you titled *Shoreline Master Program Public Comment Summary, Planning Commission Working Draft 2/4/2010*. The language in section 20.30.035.2.d was changed from the recommendation from the Shoreline Advisory Committee. Please delete the entire paragraph or restore the original language, which is consistent with WAC 173-26-221 section 4.d.iii.C.

Revise 20.30.035.2.d as follows:

- d. Public access shall be required for all new shoreline development and uses, except for; water dependant uses; and individual single family residences ~~and subdivisions~~ of less not part of a development planned for more than four parcels.

Re: Shoreline Master Program Public Comment Summary, Item #31A

Thank you for including my comments that were overlooked in the first draft of the matrix. The draft response to the issue of requiring public access when a piece of property is subdivided reads "The language was changed to make the regulation more understandable. The language as shown in the WAC is somewhat difficult to interpret." WAC 173-26-221[4.d.iii] was identified as the reference, which states, "Provide standards for the dedication and improvement of public access in developments for water-enjoyment, water-related, and nonwater-dependent uses and for the **subdivision of land into more than four parcels**. In these cases, public access should be required except: ..." (my emphasis). This is different than the language used in the draft Burien SMP. "Subdivision of land into more than four parcels" is not the same as "subdivisions of less than four parcels." In my earlier request I referenced WAC 173-26-221[4.d.iii.C], which is an exception paragraph and uses the "not part of a development planned for more than four parcels" language. It is clear that both paragraphs in the WACs intend for the requirement to apply to property divided into more than four (5+) parcels. The Shoreline Advisory Committee agreed. A copy of section 4 of the WAC is attached. Please read it and make the correct revision to the SMP.

It is commendable that changes were made to make the regulation more understandable. Unfortunately, the language change that was made to the SMP changed the *meaning* of the regulation. I don't care which way it's stated, as long as the intent is accurate. Below are two suggested revisions, based on two references in the WACs. Please choose one of them and revise 20.30.035.2.d of the SMP.

To be consistent with WAC 173-26-221[4.d.iii], revise 20.30.035.2.d as follows:

- d. Public access shall be required for all new shoreline development and uses, except for; water dependant uses, individual single family residences and subdivisions of four or less ~~than four~~ parcels.

To be consistent with WAC 173-26-221[4.d.iii.C], revise 20.30.035.2.d as follows:

- d. Public access shall be required for all new shoreline development and uses, except for; water dependant uses; and individual single family residences and subdivisions of less not part of a development planned for more than four parcels.

February 24, 2010

To: City of Burien Planning Commission  
From: Kathi Skarbo  
Re: Shoreline Master Program Update

After speaking at last night's Planning Commission meeting about section 20.30.035.2.d of the Shoreline Master Program, it seemed there was still some confusion among the commissioners. This is another attempt to explain and clarify the issue. This paragraph in the SMP defines at what point public access is required when a lot is developed into a number of parcels. I am providing the relevant sections of several documents, with emphasis on the phrase that defines the number, and a clear interpretation of what it means. I have previously provided to you copies of the complete sections of these documents, and I will excerpt only the appropriate paragraphs here.

1. In the current draft of the Burien SMP, dated 11/17/2009, section 20.30.035.2.d states:

- d. Public access shall be required for all new shoreline development and uses, except for; water dependant uses, individual single family residences and **subdivisions of less than four parcels.**

*Interpretation: Developments/subdivisions of 4+ parcels require public access.*

2. WAC 173-26-221[4.d.iii], states:

- (iii) Provide standards for the dedication and improvement of public access in developments for water-enjoyment, water-related, and nonwater-dependent uses and for the **subdivision of land into more than four parcels.** In these cases, public access should be required except:

*Interpretation: Developments/subdivisions of 5+ parcels require public access.*

3. WAC 173-26-221[4.d.iii.C], which follows the "except" in the above WAC, states:

- (C) For individual single-family residences **not part of a development planned for more than four parcels.**

*Interpretation: Developments/subdivisions of 5+ parcels require public access.*

4. The Shoreline Advisory Committee approved the following language for section 20.30.035.2.d on September 23, 2009:

- d. Public access shall be required for all new shoreline development and uses, except for water dependent uses and individual single family residences **not part of a development planned for more than four parcels.**

Note: It was suggested at the 9/23/2009 meeting that the number be changed to more than five parcels, and the committee chose to keep the language as proposed since it came directly from a WAC.

*Interpretation: Developments/subdivisions of 5+ parcels require public access.*

I was quite surprised when I saw staff's draft response (item 31A) on the matrix of public comments dated 2/18/2010. In essence, staff recommends that no changes be made to this section of the SMP because all they did was change the language to make it more understandable. I have tried to communicate to you that staff did much more than change the language – they changed the intent. You can see that very clearly from the above references. Apparently staff doesn't understand this. The language is very confusing, with some passages stated in the affirmative and some stated as exceptions, and even a negative of an exception. I believe it is your responsibility to take enough time to read through and understand the excerpts I have provided above, and then correct the mistake staff made. The state and the advisory committee set the number at "more than four" and the Burien SMP should also.

At the February 9, 2010 Planning Commission meeting, I suggested this change:

Revise 20.30.035.2.d as follows:

- d. Public access shall be required for all new shoreline development and uses, except for; water dependant uses; and individual single family residences and subdivisions of less not part of a development planned for more than four parcels.

I believe this is the most appropriate wording to use because it reflects the language in the paragraph of the WAC that follows the words "except for," just as it does in the Burien SMP. It is ironic that it was suggested at last night's meeting to use the exact language from the WACs during discussions of other items on the matrix. The same should be done for section 20.30.035.2.d.

To- The Burien City Council  
To- The Burien Planning Commission  
Re- Shoreline Master Plan  
From- Chestine Edgar  
February 27, 2010

CITY OF BURIEN

This Letter is in response to the February 9, 2010 meeting of the Planning Commission and to the topics identified on the "Public Comment Summary Charts" dated 2/4/2010 and 2/18/10.

Topic #0.01-In the draft response noted on the chart, you state that you are not going to make the change that I requested because it is not inconsistent with RCW 90.58.010. That section of the RCW that you refer to is simply the title of the document and sets no priorities. However, in WAC 173-26-020 and WAC 173-26-221, (6) (b)(i)(ii) which set the principles that the SMP must encompass in reference to RCW 90.58.20; it states" (i)Prevent impacts to water quality and storm water quantity that would result in a net loss of shoreline ecological function, or significant impact to aesthetic qualities, or recreational opportunities. It is important to note that while RCW 90.58 was passed in 1971, how that document translates into application is fleshed out in the WACs at a later date. In writing and developing a SMP the RCW as well as the WACs must be used concurrently. Therefore I am requesting that the first pointer reflect the above guiding principle cited, Protect the quality of the water and result in no net loss to the natural environment.

Topic#?-I addressed this on page 5(4.) of my February 9<sup>th</sup> comments and it did not get put onto the Comment Summary Chart; it refers to User's Guide 20.10.010, Components, Figure2. Figure 2 makes no sense to the reader. Some of the lines are missing on the chart or not connected correctly.

The four appendices boxes should be connected to each other because they build on the data and statements from each other and draw conclusions from each other. They are in an incorrect order from when they were created. So the Shoreline Inventory should be the top or the bottom box depending on how you read the sequence of development. It was the first document created in the group. The last document that was created was the Cumulative Impacts Analysis and again it should either be the top or bottom box depending on how you are ordering the creation of the documents. These four boxes should be labeled baseline data for the SMP/Appendices. Then they should have a connecting line over to the City Of Burien Shoreline Program sequence of boxes as they provided the baseline data for the creation of the Burien Program. If you cannot figure out how to do this then remove Figure 2 because it is incorrect and makes no sense to the reader. Also most readers miss these important Appendices because they appear to have no relationship to the SMP or to each other.

Topic16,17,17A,75 -All of this discussion relates to the fact that Burien is not using the best available science for the rating of wetlands. In 2003, The City of Burien hired Adolfson to work on the Critical Areas Ordinance; the wetlands scientist at that time recommended that the City of Burien adopt the *Washington State Wetland Rating System for Western Washington -Revised* because it was the best available science method for rating wetlands. While the city made a few changes to its own rating scale it never

CFTR: 03/08/10

followed the recommendation of that scientist. It continued it use its own scale. The SMP process allows cities to use their own scales for the Shoreline Inventory to establish just the Inventory but it does not grandfather in old rating scales that do not meet the test of best science. Burien's scale does not meet that test. Again in 2010 when a wetlands scientist from Futurewise reviewed the SMP draft document, he recommended that Burien adopt the *Washington State Wetland Rating System for Western Washington-Revised* and I recommended this change also. The response from the City of Burien has continued to be that they are going to keep their old scale no matter what because they have always used it. The flaws in the rating system are that it does not have the scientific detail necessary for the rating of Burien's wetlands. For example, Lake Burien is a category 4 wetland just because they say it is-there are no scientific descriptors. Small wetlands under a certain size get no protections just because they say they do not-while these wetlands in other cities around Burien are protected on *the WSWRSWW-Revised* those cities use. The *Washington State Wetland Rating System for Western Washington-Revised* is not just a "fly by night system"; it is the one endorsed by the Dept. of Ecology. Burien needs to adopt the *Washington State Wetland Rating System for Western Washington-Revised* for its SMP, use the best available science and step into the 21<sup>st</sup> century on how it rates its wetlands. The Planning Commission needs to insist that the SMP incorporate the *Washington State Wetland Rating System for Western Washington-Revised* in spite of what the Burien Planning Department says that it is not going to do. Not using the rating system is in direct conflict to the policy statement in the SMP that states Burien will use the best available science. P.S.-I encourage any Planning Commissioner to call the Dept. Of Ecology and have a discussion about this rating system issue.

Topic# 20,25A,78A,82- All of these topics relate to the concept of "no net loss" to the functioning shoreline environment. At the meetings of the Shoreline Advisory Committee as well as throughout this comment period to the Planning Commission, citizens have asked that the SMP have in the Administration Section-Chapter procedures for the on going monitoring of the shorelines for "no Net Loss". Each time the city has responded that; 1.it has no money for this, 2. they are not sure who will do this, 3. they do not know how to do and,4. this process will come later once the SMP is in place. In reality, if a procedure/plan is not written into the SMP document right now there will be not on going monitoring for "no net loss". Currently there is a documented loss of beach area over in the Shorewood area. It has been occurring over the last 12 years. Citizens have reported what is happening there with written comments, photos and verbal comments to the city. The CAO is supposed to take care of "no net loss" issues like this one. However, the city has still not proposed any study or monitoring to address this citizen documented issue of "net loss". Additionally, the city has just issued a statement of non-significance on a new project to a citizen who is proposing even more work in this beach area without insisting on an Environmental Impact Statement to determine whether his property and structures are responsible for the "net loss" to his neighbors. Permits and Regulations do not address these long term issues that result. Even if someone cheats on their permit or in following the regulation, there is a 3 years window in which-if they do not get caught-the rest of us have to live with and pay for the damages. An on going monitoring program would help to prevent such problems. Therefore, I am requesting that the Administration Section of the SMP contain wording to the effect based on these policies in the draft SMP (Pol. RES 10,Pol ALL 1, Pol ALL2, Pol ALL 3, Pol ALL 4, Pol ALL7), The *City of Burien* will

conduct on going sampling studies annually to monitor for "no net loss" of its protected shorelines. This will be accomplished by the listed possible means and with authorization from The Shoreline Administrator and the WDFW.

a. Interagency agreements and partnerships with local environmental groups, city, state agencies, county agencies or tribes.

b. Interagency agreements with universities, colleges, vocational-technical training institutions, schools districts or The Seahurst Park Environmental Center.

c. Data can be collected and submitted by Citizen Scientists for review by the city or the group organizing the monitoring or study.

d. Data from these studies shall be made available to public on an annual basis. The argument by the city that it has no money for monitoring is a mute point. The SMP is a mandated program. The city has an obligation to prioritize its budget to fund mandated items first in the budget.

Topic 12, 21L,30A,30D, 30F, 30J,30K-All of these topics refer to one of the core principles of the in the SMP of protect of private property and public safety. At the Shoreline Advisory Committee Meetings, a number of members of the committee asked that in the Administrative Section-Chapter 5 that there be some kind of provisions or regulations that addressed the need for protection and enforcement to attend to the issues of protection of private property, public property and public safety. The city representative on the committee responded that this could not be put into the document because the city had no money for this. In a letter to the City Council and in an open letter to the B-Town Blog, Jim Branson requested information on how many citations, warnings of fines had been issues to citizens or park users who had violated posted rules or park policies. The answer appears to be none. Additionally, when park incidents have been reported to the police or city there seems to be an indecision on the part of both agencies about who should go and check on it, who is responsible to follow up and who takes action on it. I am reminded of a recent incident in Seahurst Park where a vagrant was living in the Park and threatening citizens trying to use the hiking trails. The police were called and they said that they would not go into the park. As the City has no Park Ranger System, there was no one from the city who had law enforcement authority to check out the situation. Additionally, the city offices are no open on the weekend for monitoring threats to public health and safety in the parks. Therefore, I am requesting the Administration Section of the SMP contain wording to the effect based on these policies in the SMP draft Pol PA 3, The City will establish a working network of processes and procedures for the protection of private property, public property and public safety in the shoreline areas. This will be accomplished by the listed possible means and with authorization of the Shoreline Administrator, Burien Police (King County Police) and, Burien Department of Parks and Recreation.

A. an interdepartmental and interagency plan will be developed to address the issues of protect of private property, public property and public safety in shoreline areas...

b. The interdepartmental and interagency plan will address violations of city laws and shoreline violations-such as who can write tickets, issue fines, etc.

c. A method for collection data on incidents in the reported in these areas will be established and will reflect which department or agency handled the issue. This data shall be available for public review.

d. Should the city develop a Park Ranger Program the plan will address the authority that these individuals have to enforce laws and rules. Again, these are components of the mandated SMP.

Topic 31A, 83-These two topics address the fact that the wording on how many homes being developed in an area will develop a public access. I am not sure why this discussion seems to be an unable to be resolved. Here is the history of what occurred-this can be verified by reviewing the Summary Notes from the SAC meetings.-

1. The SAC voted to keep the State wording-d. Public access shall be required for all new shoreline development and uses, except for; water dependent uses and individual single family residences not part of a development planned, for more than four parcels.
2. The SAC met the next meeting and approved the minutes stating that they would stick with the state wording of more than four parcels-which was what was in their working draft at that time.
3. The editors of the Nov. 2009 SMP Draft then took the license to change the wording because they said they wanted to make it clearer. In the process they changed the wording to state less than rather than more than. I'm not sure how that can be construed to clarify anything. Citizens have appeared before the Planning Commission to complain about this change 2 times.
4. In the most recent issuing of the Shoreline Master Program Public Comment Summary, this still appears to be unresolved.

The statement in the SMP should base on WAC 173-26-221(4. Public Access)(c. Planning process to address public access)(iii) page 11; Which addresses that a public access should be required when there is a subdivision of land into more than 4 parcels with the other above stated exceptions. Please make this correction based on what the committee decided at its meeting, state SMP provisions recommended and on citizen input. Essentially keep the wording that was approved by the SAC in the meeting and minutes.  
Please make this correction.

Topic 83-This refers to public access and again raises the issue of when a public access has to be created but also raises the issue of how many public access points should be created an a given shoreline area before there is real danger to the environment. As a specific example, should the Ruth Dykeman Children's Center ever be sold; the zoning formula would allow 43 new homes on Lake Burien. How many public access points would this create? Just several houses down the road, there are lots large enough so that they could be sub-divided into more than 4 parcels. Again according to the formula that would create another public access point on the lake. There are at least 5 points that this could happen to on the lake. Just how many public access points can a small lake like this sustain? Again this is why I believe that you need to create an Appendix titled Plan for Public Access to address how these issues will be handled. This kind of analysis does not typically happen in the typical permitting process that they say will take care of these future issues.

Topic 75A-In the draft response, you do not refer which comprehensive plan you are referring to. Again I request that you use the best available science and reference the King County Comp. plan for the protection the listed species in your SMP.

Topic 74, 74A- The cumulative impacts analysis is still incorrect as it does not take into account the amount of development that can occur on Lake Burien as well as the amount of impervious surface and non point pollution this will create. I request that this section of the analysis be reworked to reflect what could happen with future development.

Topic 31e- This area of the Shoreline Inventory is incomplete as it does not address visual access, street ends and utility access points. I m requesting that this section be reworked or that at a table be created in an Appendix to address a Plan for Public Access.

Topic 87- As this is the first time that this administrative position is included in the city documents and this position holds considerable power and demands a wealth of knowledge about shorelines, permitting and regulation of the city, is seems only intellectually correct to include a better description in the document of this administrator. This can be put into the Definitions or the Administrative Section. The public needs to be assured that this person has more qualifications than Brownie did in order to get his job running FEMA. I am requesting that a change be made to flesh out who this administrator is and what are the limits of the position.

There is nothing in the Administrative Section that speaks to the issue of Public Safety on shorelines which is a mandate of the SMP. Burien has no education programs or provisions for the education of the public on water safety or the use of the shorelines. Additionally, the city has very limited signage about how to use the shorelines. Some of the current signage is on the wrong locations, missing or a posted on private property which the public has to cross just to read. I am requesting that a section be developed and added to the Administrative Section-Chapter5 to address the issue of Public Safety on the Shorelines.

March 1, 2010

✓ Mayor Joan McGilton  
City of Burien  
400 SW 152<sup>nd</sup> Street, Suite 300  
Burien, WA 98166

Subject: Citizen's Petition for a Timeline Extension for the Planning Commission's Submittal of the Shoreline Master Program (SMP) to the Burien City Council.

Dear Mayor McGilton,

Please find attached a Petition signed by Citizens of Burien requesting an extension of at least 6 months for submittal by the Planning Commission of the draft Shoreline Master Program (SMP) to the Burien City Council.

The petitioners firmly believe this additional time is needed to allow concerned citizens and the Planning Commission to fully understand the SMP and its impact on our City. In addition, we believe the best process for developing the SMP is through dialog with the Planning Commission rather than working details in public comment periods with the Burien City Council and the Department of Ecology.

The Petition details the reasons for granting an extension and the benefits which will be derived by the City of Burien.

Thank you for consideration of our request.

Sincerely,

Carol Jacobson for  
Concerned Citizens of Burien  
3324 SW 172<sup>nd</sup> Street  
Burien, WA 98166

Attachment: Petition dated February 26, 2010, to the City of Burien for a Timeline Extension for Submittal of the Shoreline Master Program (SMP) to the City Council

Cc: Mr. Michael Martin, City Manager;  
City of Burien Planning Commission

CFTE: 03/02/10

**PETITION TO THE CITY OF BURIEN**  
**February 26, 2010**

**CITIZEN'S REQUEST FOR TIMELINE EXTENSION FOR  
THE PLANNING COMMISSION'S SUBMITTAL OF  
THE SHORELINE MASTER PROGRAM (SMP)  
TO  
THE BURIEN CITY COUNCIL**

The City of Burien is in the process of updating rules and policies related to shorelines in Burien. The Planning Commission currently is formulating a recommendation to the City Council on the draft Shoreline Master Program (SMP). Submittal by the Commission is planned in the next few weeks.

***We, citizens of the City of Burien, request that The Burien City Council grant an extension of at least 6 months from the date of this request for submittal by the Planning Commission of the draft Shoreline Master Program to the Council for the following reasons:***

**1. Insufficient Time for Consideration by Commission**

The Planning Commission received the draft Shoreline Master Program in December 2009. Additional time is needed for the Commission to fully understand the Program and its impact on the Citizens of Burien.

**2. Insufficient Participation Process**

There has not been adequate opportunity for involvement of citizens most directly affected by the Shoreline Master Program in development of the draft document released in November 2009. The Shoreline Advisory Committee only had two shoreline residents as members. There has been only one public hearing on the SMP, held January 12, 2010. There are no further public hearings scheduled by the Planning Commission prior to sending the draft to City Council. However, a large number of concerned Citizens of Burien have voluntarily attended regular Commission Meetings and commented on the draft document during the Public Comment Period. This huge turnout indicates the concern of the communities most directly affected by the SMP and the need for more time to allow adequate input into the plan prior to submission to the City Council. This requested extension will permit the Commission to schedule additional public hearings and all Citizens of Burien to have time to fully understand and respond to the updated Program.

**3. Insufficient Communication Process**

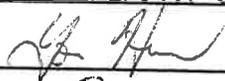

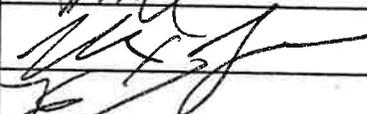

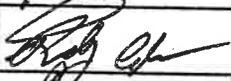

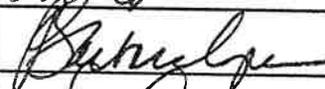

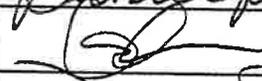

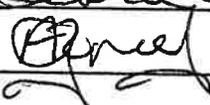

Shoreline property owners in Burien are the citizens most directly affected by the proposed updated SMP. A policy of direct mailing should have been established to notify all affected property owners of all meetings being held on this subject. This was not done, as evidenced by the huge number of citizens who are just now becoming aware of this process. Those citizens who have attended informational meetings on the SMP and signed the registers were assured they would be notified of future meetings. Specific examples are meetings in July 2009 and November 2009. Of these, only those who signed-in at the July meeting were notified by mail for the one public hearing on January 12. Those on the November list were not. In addition, there has been no opportunity for discussion between citizens and the Planning Commission about the draft document. The ability to speak for three minutes at a Planning Commission or City Council meeting while getting no feedback of any kind does not constitute discussion. The Public Comment Summary Planning Commission working draft is a good tool for organizing the many issues raised during public comment portions of meetings, but is not an effective or efficient communication tool. This requested extension would allow time for more meaningful communication between the Planning Commission and concerned citizens.

**THE REQUESTED EXTENSION OF THIS PROCESS WILL BENEFIT EVERYONE INVOLVED AND RESULT IN A  
BETTER SHORELINE MASTER PROGRAM WHILE STILL MEETING THE 12/2010 DEADLINE**

**SEE ATTACHED FOR SIGNATURES:**

Subject: Re: Link to video promotion of "A Midsummer Night's Dream."

Dear Mayor and Council,

Here is a link to Burien Little Theatre's video promotion of its 1950s Rock n' Roll "A Midsummer Night's Dream."

<http://www.youtube.com/watch?v=xY2aGQySNvw>

BLT hopes you enjoyed the video, BLT would love to see this and future promotions of its shows on the City's Cable television station. However in the recent past that suggestion was rejected by the City. Here is what the City had to say:

Dear Mr. Dickman:

I have been asked to respond to your email correspondence of November 19, 2009. Your email and this reply will be included in the Correspondence for the Record for the next City Council meeting.

While your desire to publicize the Burien Little Theater is understandable, a staff committee responsible for the City's external communications has concluded that if a City radio, TV or website promotional opportunity is provided to one entity it must be provided to all who ask, whether or not it is an organization that the City might wish to support or promote. Therefore the staff committee has determined that the City should exercise caution and not provide such an opportunity to any outside organizations.

Thank you-

Lisa Clausen  
Burien City Manager's Office

I question that the City could not control access to its radio and cable television station, limiting its support to Burien non-profit arts organizations the way it is currently doing with the Wild Strawberry Festival this summer. I would very much like to see the City support its local non-profits arts organizations in every possible way. Perhaps in the future the City's rejection of free content made available to the City's radio and cable television stations aimed to support City non-profit arts organizations will be reconsidered.

CFTR: 03/08/10

To The Burien City Council  
To The Burien Planning Commission  
From-Chestine Edgar  
Re-The SMP and the presentation by Nicole Faghin/Reid Middleton at the 2/23/10  
Planning Commission meeting  
Date of letter-3/01/10

I am writing to you because citizens are no longer allowed to speak to the Planning Commission at their meetings. This letter is to clarify some misinformation that Nicole Faghin/Reid Middleton presented to the Planning Commission during the February 23, 2010 meeting. You can review the posted video of her presentation by advancing to the 2 hour point. <http://www.burienmedia.org/default.aspx>

Definition and Use of Best Available Science (BAS) Ms. Faghin stated that BAS was required in the Growth Management Act and the Critical Areas Ordinance but was not required in the Shoreline Master Act (SMA). However that is not completely correct as a statement. BAS is required in the SMP if the shoreline is in a Critical Area. Lake Burien is designated as a Critical Area. For that reason, Policy CON 9 of the Burien SMP, page II-12 specifically states, "*The City requires the use of Best Available Science for protecting critical areas within the community pursuant to the Growth Management Act RCW 36.70A.172(l)*".

Burien Wetland Rating Scale Lake Burien was always designated as a Category 2 wetland under King County. In 2003, when the City of Burien created its own wetland rating scale for the Critical Areas Ordinance, it created a category not based on any best science, current science or any science. The City of Burien created a category based on a geographic location. There are no size, function, habitat or plant and animal descriptors to explain how a Category 4 wetland is designated. The City of Burien simply states that any wetland associated with Lake Burien is automatically Category 4. (page 40-25, chapter 19.40, Ord.394). Now perhaps no one caught this error in the wetland rating scale up until this point in time, but now that it has been called to the City's attention, the City can not continue to use it into the future by saying "that's the way we did it in the past in the CAO and we are not going to address or correct it in the SMP." Ms. Faghin is incorrect in stating that the SMP does not have to address this issue for the Critical Area of Lake Burien. I encourage the Planning Commission and the City Council to have the city attorney investigate this issue immediately. Additionally, I encourage the Planning Commission and The City Council to request a presentation from the Department of Ecology to clarify what is required. The Burien Critical Areas Ordinance (BMC 19.40.300) establishes a wetland classification system that does not match the currently accepted science-based systems. It even includes the provision that all Lake Burien wetlands are Class 4 wetlands and applies a default 30 foot buffer to them regardless of their characteristics. Additionally the Class 4 designation is based solely on a geographical name and does not have any scientific characteristics of the wetland. The wetland system must be changed to use the current science for wetland protection. I am recommending the use of the Washington State Wetland Rating System for Western Washington-Revised. This supports both 20.30.25(2. a.) and Policy CON 9 of the Burien Shoreline Master Program.

**No Net Loss as a concept** Ms. Faghin stated that the development is not going to stop because of the SMP. All development causes “net loss’ and so the environment is going to experience degradation and then we are going to work to bring it back to its baseline (no net loss point) and hopefully exceed the baseline. This is an incorrect presentation on this concept. There is a sequence to be followed in the WAC 173-26-201 that states, in priority steps, the first step to be considered is “*avoiding the impact altogether by taking no action or parts of an action*”. However, she then goes on to explain that the baseline measure for not net loss is established through the Technical Documents.

**Technical Documents** Ms. Faghin stated to the Planning Commissioners that they did not need to read or bother with the Technical Documents (appendices) because they were already vetted with the State. She went on to state that the Technical Documents were correct as they were written and did not really need to be revised. This is incorrect. The Planning Commission is responsible for reading those technical documents to check for their accuracy as they will set the baseline for no net loss in the SMP document. If there are errors in the information, it is the Planning Commissioners responsibility to call these errors to the attention of the consultant for correction.

Additionally, Ms. Faghin stated to the Planning Commissioners that the Technical Documents only needed to be based on the current, available science not BAS. She failed to mention that the WAC also states that the information in these documents must be accurate and complete scientific and technical information. The WAC further states that information should be solicited through the public participation process. The consultant and the city have resisted correcting the errors in these technical document by attempting to discredit the public input on these documents through the 5 D Process (deny, delay, discredit, derail and don't take anymore oral comments).

The Shoreline Inventory, Cumulative Impacts Analysis, and the Shoreline Analysis and Characterization Technical Documents have serious flaws in their content with regard to Lake Burien. This happened because the consultant did not even use the current available science to write the documents and did not thoroughly review the CAO for Burien. Additionally, the consultant claimed to use sources of information that do not exist and claimed to have made site visits to Lake Burien that are not documented in the Methodology. I have written to the Planning Commission and the City Council about this on at least 3 different occasions and I have made oral comments on these documents also. In spite of that input, Ms. Faghin has advised the Planning Commission that the documents do not need to be accurate and complete because they are vetted with the State.

Again, here is a listing of the documents and the areas of them that contain errors and need to be corrected:

**Shoreline Inventory** Sections 1.1,1.2, 1.4,2.3, 2.9,3.1, 3.5, 9,10.5 (Current Land Use, Critical Areas, Opportunities for Conservation and Restoration), Bibliography( Lake Burien was part of the King County, 10 year small lakes study. None of this material was reviewed or included in this inventory. It can easily be found online by just searching under the parameter *Lake Burien*). Additionally the CAO for Burien (stating that Lake Burien is a class 4 wetland) was not reviewed because repeatedly Lake Burien is referred to as Class 2 wetland in all 3 documents and as a result the wrong conclusions are drawn about future development, cumulative impacts and restoration issues. By the way, using current science, Lake Burien really is a Class 2 wetland. Therefore, no buffer recommendation in the SMP for Lake Burien should be considered until the correct information is put into all 3 of the discussed Technical Documents and further analysis is done.

**Shoreline Analysis and Characterization** Sections 1.4, 3.2 (Reach LB, Table 7, Current Land Use, Other Habitat Function), 4.1.5., Bibliography.

**Cumulative Impacts Analysis** Sections 2.2.1 (Reach LB, Table 2.6, Other Habitat Function, Table 2.7, 3.4, 3.5, Summary. *Bibliography.*

These Technical Documents and the SMP cost the citizens of Burien and the state of Washington \$98,000 for their development-up to this point in time. They should be accurate, complete, scientifically sound and of high quality as is reflected by their cost. It seems only reasonable that the consultant/Reid Middleton correct the errors in these documents at no further cost to the citizens of Burien as well as to the citizens of the State of Washington.

Chestine Edgar

Re: Citizen Concerns Regarding The Burien Shoreline Master Plan Update Public  
Comment Summary

The City of Burien is in the process of updating The Burien Shoreline Master Plan. They have an impressive list of scientific sources but unfortunately these sources do not show accurate information concerning Lake Burien. If you are going to be producing policy concerning Lake Burien the city needs to obtain information that is current and accurate.

As evidence of this lack of accurate data, we refer to the Shoreline Inventory (March 27, 2008) for the Burien SMP. Note that on page 11, in Table 4 "Documented Priority Habitats and Species within the City of Burien shoreline jurisdiction", Inventory Reach LB which states "None listed specifically for Lake Burien". (i.e. we did not find any published data about this area). Essentially they are saying, we don't know anything about this area so there must not be anything there. We have requested that the City of Burien document Lake Burien Priority Habitats and Species just like it has done for the other shorelines.

Additionally the city and Reid Middleton (the consultant) have claimed to use, "Lake Burien Shore Club on line inventories of fish, birds and wildlife." We do not find these inventories listed in the bibliography and as members of the LBSC we are unaware of any on line inventory of fish, birds and wildlife for Lake Burien. They also claim to have made several site visits to the lake but the findings are not noted in the Methodology of Scientific Method used.

In 2008 King County updated their Comprehensive Plan to refine the states definition to include native species listed as priority species by WDFW, bird species whose populations in King County are known to have declined significantly over the past 150 years, anadromous salmonids and aquatic species whose populations are particularly vulnerable to changes in water quality and quantity. King County policy makers realize more localized declines of species within King County may not be captured by state and federal listings. King County advises protection of native species of local importance. King County Comprehensive Plan 2008, Federal and State Listed and Candidate Species E-484 through E-498.

Lake Burien residents gave input to the city of Burien that ten of the native bird species listed as priority species by King County migrate to the lake for a time each year, making their habitat on Lake Burien. These include but are not limited to the Western Grebe,

Great Blue Heron, Hooded Merganser, Barrows Goldeneye, Common Goldeneye, Osprey, Band-tailed pigeon, Belted Kingfisher, Purple Finch and Hairy Woodpecker. Numerous other birds are commonly found visiting and living on Lake Burien. Here they find a source of clean quality and quantity water where they can feed, mate and clean themselves.

Lake Burien is also a major hunting ground for the Bald Eagles that are found in Seahurst at Eagle Landing. They can be seen flying back and forth between the lake and the park, especially in the summer. The lake is a source of Coots, other small birds and fish for them to survive on.

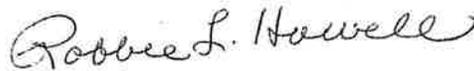

The lake has also acquired more Marsh birds since the Port of Seattle built the third runway right over the top of the wet lands they previously called home. Among these are the Ruddy Ducks. As has been said before, "They didn't know they were supposed to move to their mitigation area in Auburn."

Because of its Priority Habitats, its importance for the survival of the Bald Eagles, Blue Herons, migrating bird's, native turtles, fish and crustaceans we hereby request that a physical inventory of Lake Burien be conducted to establish a proper baseline for the SMP before any changes are contemplated. Please reverse the deliberate invalidation of the Lake Burien Inventory Reach and validate it by adding it to Table 4, page 11 of City of Burien Shoreline Master Program Update Shoreline Inventory.

Respectfully submitted,

Robert C. Howell

Robbie L. Howell

Honorable Mayor and City Council Members

My name is Robbie Howell  
I live at 15240 20<sup>th</sup> Ave SW  
Burien, WA 98166

For those of you who don't know, I want to clarify the importance of Lake Burien for the fish and wild life in Burien. It is the hunting ground for Ospreys, Great Blue Herons and the Bald Eagles at Eagle Landing. It is a habitat for many migrating birds in the winter and home to ducks and geese all year around. It is also home to perch, sunfish and bass that are part of the food chain for their predators. The lake supports frogs, crayfish and several species of turtles, including the Western Painted Turtle.

In the city's Shoreline Master Plan the Lake Burien Inventory has not been validated by the city of Burien. How can Burien map this great habitat network if it closes its' eyes and says nothing lives in the lake?  
SMP,Pol.CON 26.

I have permission to give a Computer CD to each one of you and Mr. Mike Martin. Stan Milkowski is the photographer. All rights belong to Stan and you must ask him for permission to publish or sell these photos of wildlife on Lake Burien.

I am also giving you copies of maps from the Washington Coastal Atlas that show the local lakes and parks that have fecal coliform bacteria contamination. The map shows there are 5 categories that range from 1-5, 5 being the worst. You will notice that Seahurst Park, Eagle Landing and Angle Lake are category 5. They all have public access. Lake Burien is a category 1.

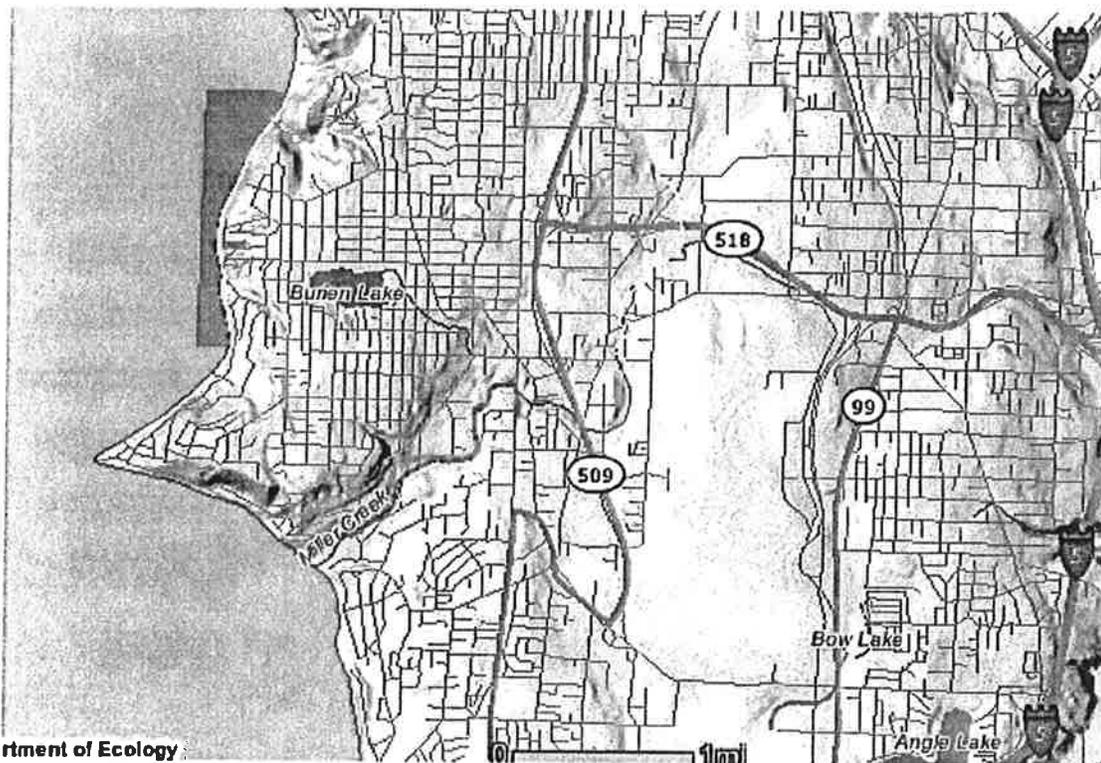

If you allow public access to Lake Burien and different points at Three Tree Point, the fecal coliform map would then soon have a red strip running clear around Three Tree Point and Lake Burien will be filled in with red. Public Access would lower our quality of life, cause us much grief and cost the city millions of dollars to clean up this mess.

I urge you to vote no to public access on Lake Burien and the different possible access points at Three Tree Point.

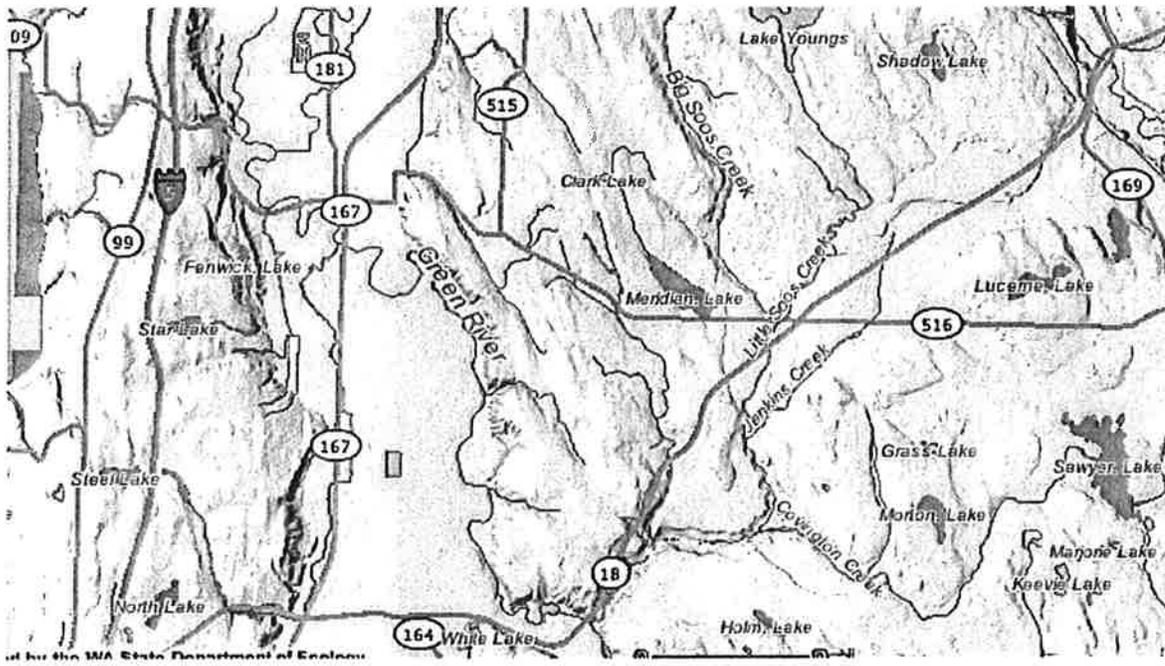

CFTR: 03/08/10

Thank you for yor consideration.

## 4 DEGRADED AREAS AND POTENTIAL RESTORATION SITES

### 4.1 WATER QUALITY

Within the City shoreline area, the major source of available data for water quality is the State Water Quality Assessment, commonly referred to as the “303(d) list.” Technically, the 303(d) list refers to a specific category of water quality (see below). In order to maintain compliance with the Federal Clean Water Act, Ecology evaluates water quality for state fresh and marine water bodies and publishes the information as a list every two to four years. The data also are available spatially through on-line mappers made available on the Ecology website. Prior to the current list (2002/4), the next most recent list was prepared in 1998. Ecology prepares the list by integrating data from its assessment activities with data collected by other agencies and organizations. For each parameter tested, applicable areas for each waterbody are assigned one of the following categories:

- **Category 5** Polluted waters with no existing Total Maximum Daily Load (TMDL), submitted to EPA for approval on 2002/4 list.
- **Category 4c** Impaired, already has a TMDL.
- **Category 4b** Impaired, has pollution control plan.
- **Category 4a** Impaired, non-pollutant.
- **Category 3** No data (catch all for parameters not in Categories 5, 4 [all], 2, or 1).
- **Category 2** Waters of concern (not impaired or known to be impaired).
- **Category 1** Meets tested standards.

The assessment for each area of each waterbody is not inclusive for all pollutants. A Category 1 listing for a particular parameter does not necessarily mean that area is clean of all other pollutants.

Based on the most recent Ecology water quality impairments list the Burien marine shoreline has impairment listings for two water quality parameters (Table 6). One of these parameters, fecal coliform, is a Category 5 listing and requires a pollution control plan (Total Maximum Daily Load or TMDL). There is also a Category 4c listing for Fish Habitat based on algal blooms (Frankenstein 2000).

The only parameter listed for Lake Burien is total phosphorus, which meets tested standards.

## CITY COUNCIL MEETING MINUTES

March 1, 2010

**SPECIAL MEETING, Miller Creek Conference Room, 3<sup>rd</sup> Floor**

**For the purpose of holding an Executive Session to discuss potential litigation,  
followed by interviews for the Planning Commission**

**6:00 p.m.**

and

**COUNCIL MEETING, 1<sup>st</sup> Floor**

**7:00 p.m.**

Burien City Hall

400 SW 152<sup>nd</sup> Street

Burien, Washington 98166

*To hear Council's full discussion of a specific topic or the complete meeting, the following resources are available:*

- *Watch the video-stream available on the City website, [www.burienwa.gov](http://www.burienwa.gov)*
- *Check out a DVD of the Council Meeting from the Burien Library*
- *Order a DVD of the meeting from the City Clerk, (206) 241-4647*

### **SPECIAL MEETING**

Mayor McGilton called the Special Meeting of the Burien City Council to order at 6:00 p.m. for the purpose of holding an Executive Session to discuss potential litigation per RCW 42.30.110(1i).

Present: Mayor Joan McGilton, Deputy Mayor Rose Clark, Councilmembers Brian Bennett, Jack Block, Jr., Kathy Keene, and Lucy Krakowiak. Councilmember Gordon was excused.

Administrative staff present: Mike Martin, City Manager; Christopher Bacha, Interim City Attorney.

No action was taken.

### **ADJOURN TO PLANNING COMMISSION INTERVIEWS**

Mayor McGilton called the Special Meeting of the Burien City Council to order at 6:15 p.m. for the purpose of conducting Planning Commission interviews.

Present: Mayor Joan McGilton, Deputy Mayor Rose Clark, Councilmembers Brian Bennett, Jack Block, Jr., Kathy Keene, and Lucy Krakowiak. Councilmember Gordon was excused.

Administrative staff present: Mike Martin, City Manager.

No action was taken.

### **ADJOURN TO COUNCIL MEETING**

The Special Meeting was adjourned at 6:55 p.m.

**CALL TO ORDER**

Mayor McGilton called the meeting of the Burien City Council to order at 7:00 p.m.

**PLEDGE OF ALLEGIANCE**

Mayor McGilton led the Pledge of Allegiance.

**ROLL CALL**

Present: Mayor Joan McGilton, Deputy Mayor Rose Clark, Councilmembers Brian Bennett, Jack Block, Jr., Kathy Keene, and Lucy Krakowiak. Councilmember Gordon Shaw was excused.

Administrative staff present: Mike Martin, City Manager; Larry Blanchard, Public Works Director; Samir Basmeh, Maintenance Manager; and Monica Lusk, City Clerk.

**AGENDA CONFIRMATION**

**Direction/Action**

**Motion** was made by Deputy Mayor Clark, seconded by Councilmember Krakowiak, and passed unanimously to affirm the March 1, 2010, Agenda.

**PUBLIC COMMENT**

Chestine Edgar, 1811 SW 152<sup>nd</sup> Street, Burien

Ms. Edgar, speaking for the Lake Burien Shore Club, spoke to what she felt were inaccuracies related to Best Available Science and vesting by the State in the presentation on the Shoreline Master Plan given by Nicole Faghin to the Planning Commission.

John Nelson, 226 SW 171<sup>st</sup> Street, Normandy Park

Mr. Nelson introduced the Cove to Clover Leprechauns who spoke to the challenge issued to the City Council. Councilmember Krakowiak was given a Sour Snake award for registering.

Carol Jacobson, 3324 SW 172<sup>nd</sup> Street, Burien

Ms. Jacobson spoke to misinformation regarding the Shoreline Management Plan. She presented a petition requesting a six month extension for the Plan submittal from the Planning Commission to the City Council. She requested an opportunity for the public to have a dialogue with the Planning Commission and staff.

Robbie Howell, 15249 20<sup>th</sup> Avenue SW, Burien

Ms. Howell stated that, in the Shoreline Master Plan, the Lake Burien inventory has not been validated. She distributed a CD containing Lake Burien pictures, and maps from the Washington Coastal Atlas that show fecal coli form bacterial contamination ratings of the local lakes and parks. She urged the Council to not allow public access on Lake Burien and Three Tree Point.

Douglas Sykes, 15221 28<sup>th</sup> Avenue SW, Burien

Mr. Sykes asked that the Shoreline Master Plan be text searchable on the City's website because he could not find references to the State Shoreline Management Act relating to private property rights.

### **CORRESPONDENCE FOR THE RECORD**

- a. Email Dated February 16, 2010, from Eric Dickman, Artistic Director, Burien Little Theatre, Regarding BLT Moving into Burien Arts Building.
- b. Email Dated February 23, 2010, from Sue Love Regarding Requests in Association with the Proposed SMP that Would Revise the Private Lake Burien Shoreline to Become Public Access.

### **CONSENT AGENDA**

- a. Approval of Minutes: Council Meeting, February 22, 2010.

#### **Direction/Action**

**Motion** was made by Deputy Mayor Clark, seconded by Councilmember Krakowiak, and passed unanimously to approve the March 1, 2010, Consent Agenda.

### **BUSINESS AGENDA**

#### **City Manager's Report**

##### **Follow-up**

Staff will update the Shoreline Master Plan so that it is a searchable document on the City's website, provide foreclosure information in a future City Manager's Report, schedule an Emergency Preparedness update, explore the feasibility of holding an open forum on the Shoreline Master Plan, and explore the feasibility of televising the Arts Commission and Parks & Recreation Board meetings.

#### **Presentation of the 2009 Annual Report by Nancy Hinthorne, President/CEO, Southwest King County Chamber of Commerce.**

Nancy Hinthorne, President/CEO, highlighted the 2009 achievements of the Southwest King County Chamber of Commerce. The Chambers 2009 Annual Report, 2010 Business Directory, and the South Sound Chambers of Commerce Legislative Coalition 2010 Legislative Priorities were distributed.

#### **Discussion on Street Overlay Program**

##### **Follow-up**

Staff will schedule a workshop on funding options for the Overlay Program, and provide information on how the comparable cities are funding and incorporating best practices into their programs.

### **COUNCIL REPORTS**

Deputy Mayor Clark reported on the Port of Seattle roundtable and the Part 150 Noise Compatibility Study for the Seattle-Tacoma International Airport meeting she attended.

Deputy Mayor Clark reported on the meeting she attended with Councilmembers Bennett and Keene and the Highline School District Board Members.

Councilmember Krakowiak reported on the Part 150 Noise Compatibility Study for the Seattle-Tacoma International Airport meeting that she attended also.

**ADJOURNMENT**

**Direction/Action**

**MOTION** was made by Deputy Mayor Clark, seconded by Councilmember Krakowiak and passed unanimously to adjourn the meeting at 8:20 p.m.

## MEMORANDUM

**TO:** Honorable Mayor and Members of the City Council  
**FROM:** Mike Martin, City Manager  
**DATE:** March 8, 2010  
**SUBJECT:** City Manager's Report

### I. INTERNAL CITY INFORMATION

#### A. Update on Businesses

Environmech, a well established Mechanical Contractor relocated to 430 SW 153rd Street in Burien and received a certificate of Occupancy and business license last week. They are considered one of Puget Sound's fastest growing mechanical contracting companies specializing in HVAC, piping, plumbing and refrigeration. Gene Timmons is the vice president and general manager.

A business license and building permit has been issued for Piranha Joe's Restaurant, which will be opening in April at 180 SW 148th Street where the Keg was previously located. The owner operates Woody's on the Water in Tacoma.

#### B. Snohomish County PUD Looks to Burien

When Snohomish County PUD began looking for a CMMS (Computerized Maintenance Management System) that integrates with their GIS inventory they heard about our Cityworks implementation for our Public Works department. They asked if they could pay us a visit to find out how the implementation went and to observe how we use it and most importantly, to find out if we like the product (answer = Yes indeed). So we will be offering our insights from the technological, managerial and maintenance perspectives in hopes of providing them a better idea of what to look for in their system.

#### C. Statistics for "Spiceworks" – IT's New Help Desk Ticketing Portal (Pg. 87)

As long as there have been computers there have been requests for help. Over the years city hall IT staff has dealt with these in a variety of ways, mostly by email and phone calls resulting in lists and lists of lists. Now at last we have a new online service that allows staff to submit help requests to a "portal", where they can be tracked until completed. This is free software – as long as you can put up with a few ads. Or, you can pay to get rid of the ads. Attached are some statistics from our first year of operation, May 2009 – March 2010.

#### D. New Projects in the Works

The two Public Works projects below will get started in 2010 and should be completed by the end of 2011:

SW 132<sup>nd</sup> Street Project:

This project will add curb, gutter and 1,700 linear feet of 5-foot sidewalk on the north side of SW 132<sup>nd</sup> Street from Hazel Valley Elementary School to Ambaum Blvd. SW. The Highline School District has committed \$125,000 to this project. The total cost of the project is \$625,000 (\$400,000 Community Development Block Grant [CDBG] funds +\$125,000 Highline School Dist. +\$100,000 City). We may look at the possibility of Low Impact Design (LID) for the drainage system in this area. We will work with the residents to determine if the City should go forward with the LID project.

Ambaum Boulevard SW Pedestrian Safety Initiative:

Ambaum Blvd. SW is a major arterial and the improvements described below will improve access to multiple schools and transit facilities. The safety improvements include:

- Retrofit of three (3) intersections on Ambaum Blvd. SW at SW 116th Street, SW 122nd Street, and SW 124th Street with audible pedestrian crosswalk warning devices (i.e. cheep and chirp);
- Installation of four (4) digital speed indicator signs along the corridor near pedestrian accident locations;
- Installation of pedestrian crossing flashers south of SW 134th Street (at the location of a pedestrian fatality); and
- Completion of electrical connections and utility coordination along the project limits.

The total cost of this work is \$71,000, which is 100% funded by a Washington State Department of Transportation (WSDOT) grant.

**E. Crowds Enjoy the Sun at Seahurst Park**

Understandably many people chose to enjoy the blue skies, sunshine, the views of the Olympic Mountains, and unseasonably warm temperatures from the City's beautiful beachfront park on the weekend of February 20-21. Parks crew worker Jay Powers commented that the upper parking lot was filled to capacity, with the beach "having more people in attendance than we'd even experience on a typical summer day."

**F. Strawberry Festival Moving to Town Square Park**

Town Square will be the hub of the Strawberry Festival this year on the weekend of June 19-20. In addition to bringing new performers, exhibits, and innovative arts to Burien, the Festival is also embracing a "greenability" theme in 2010 and highlighting sustainability and healthy living. A new Saturday afternoon Bicycle Rodeo component will be added this year, which will complement Sunday's Father's Day Car Show, which will again be sponsored by Discover Burien. In an effort to distinguish Burien's event from the many other strawberry-themed festivals in the region, staff have modified the event name to "Burien's Wild Strawberry Festival".

**G. School Gyms Used for City Sports Programs**

Parks, Recreation and Cultural Services (PaRCS) staff has worked closely with administrative staff at two of our local public schools this year, resulting in their gyms being available every Monday through Thursday night for public recreation programs. Hazel Valley Elementary School is scheduled for youth instructional soccer and an adult volleyball league. Sylvester Middle School is scheduled for both basketball drop-in and league programs for youth and adults. Having these gyms available free-of-charge during the school's regular custodial hours results in the City actually being able to provide indoor sports and athletic programs for our residents. This expanded use is in addition to the City's Teen Late Night program, which has been held at Sylvester on Saturday nights for the past 14 years.

**H. Parks Examining Uses for Dottie Harper Park Building**

As reported earlier, the Parks Department is reviewing options for future usage of the building previously rented by the Burien Arts Association. As the Department charged with managing this facility, its review includes examining potential market rate lease options for additional needed revenue as well as a range of possible recreational activities for the community offered by the Department. Possible uses include programming opportunities for additional recreation classes, as well as potential space for meetings or retreats by user groups.

**II. COUNCIL UPDATES/REPORTS**

**A. Mayors and Port Commissioners Meet – February 23 (Pg. 89)**

Deputy Mayor Rose Clark represented the City at a roundtable discussion hosted by the Port of Seattle Commission for local Mayors on February 23. The subject was the FAA Part 150 Study that is now underway to determine the area most affected by airplane traffic using Sea-Tac's third runway. The study is expected to result in recommendations in 2012, followed by an 18-month approval process by the FAA. The Mayors of SeaTac, Normandy Park, Tukwila and Federal Way attended, and Des Moines was represented by their City Manager. Deputy Mayor Clark reports that the discussion about current concerns was frank and open on both sides. Along with concerns about noise, the Mayors expressed concern about residents' health and older housing stock being more susceptible to noise impacts. The Commissioners indicated that considering the lengthy time frame for the study, perhaps there are things the Port could do in the near term. One commissioner suggested the possibility of modeling what the impacts would look like if the airport were operating at capacity. More information is found in the attached memo from Deputy Mayor Clark.

**B. FAA Part 150 Study Workshop – February 24**

A workshop on the current Part 150 noise study was held at Mt. Rainier High School on February 24. Deputy Mayor Rose Clark and City Planner Chip Davis attended for Burien. An estimated 150 people attended. Opening remarks by the Part 150 consultant set both the scope and the process of the study, and then the citizens were divided into small groups to answer a set of five questions related to noise in their neighborhoods.

The small group activity was followed by a question-and-answer session. The consultants will compile all the notes from the small groups as well as the questions and put them online at [www.airportssites.net/sea-part150](http://www.airportssites.net/sea-part150). There will be six workshops over the two years of the study, as well as presentations to citizen groups, local city councils, and the Highline Forum (whose membership includes not only the Port and local cities but also the Highline School District).

**C. Local City Councilmembers/School Board Meetings**

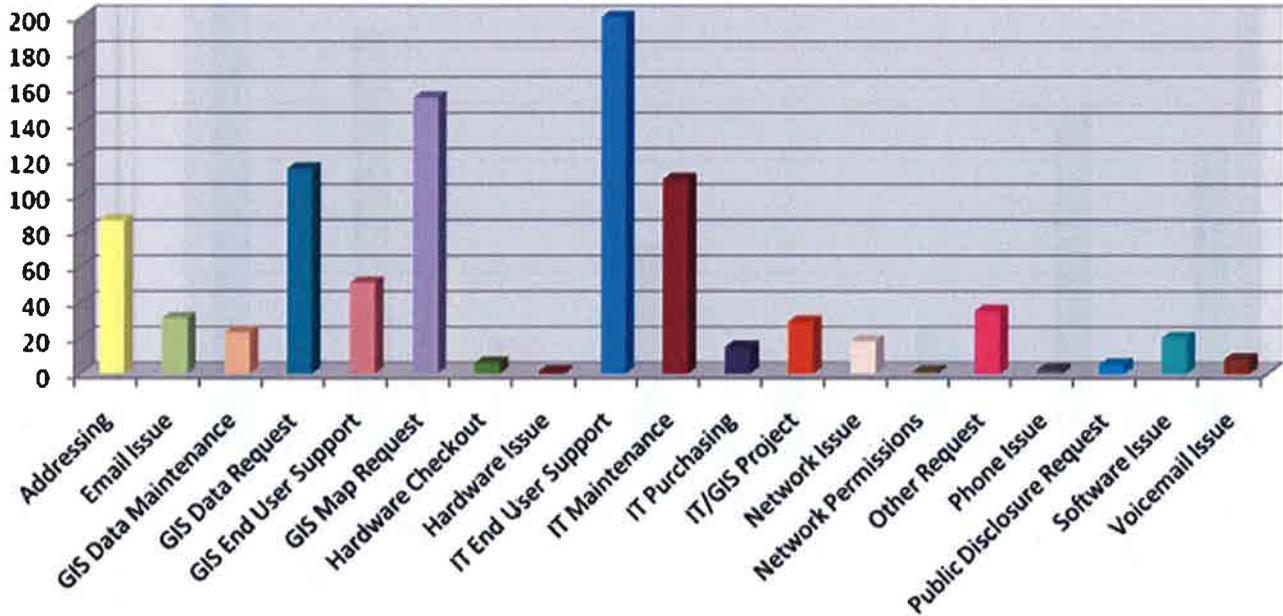

Deputy Mayor Rose Clark reports, "In an effort to better support our schools we have tried several times to meet with local councilmembers and school board members to discuss areas where we could work together." Deputy Mayor Clark met with Highline School Board President Dorsey, along with city councilmembers from Normandy Park and SeaTac, and said that the discussion was lively and there was a lot of common ground established. Councilmembers Keene and Bennett joined the group when it met a second time on February 27. Topics of interest included school nutrition/locally grown food, a "community café" for community conversation groups and civics. Each participant was given a homework assignment for the next meeting on March 27. If there are any questions, they can be directed to the councilmembers who attended the meeting.

**D. February 2010 Citizen Action Report (Pg. 91)**

Staff has provided Council with the February 2010 Citizen Action Report (attached).

## MEMORANDUM

TO: Burien City Council  
FROM: Deputy Mayor Rose Clark  
RE: Mayors and Commissioners Roundtable on FAA Part 150 Study  
DATE: March 3, 2010

On February 23 I represented Burien for a roundtable hosted by the Port of Seattle Commissioners and local mayors. Also in attendance were the following mayors: Linda Kochmar of Federal Way, George Hadley of Normandy Park, Terry Anderson of SeaTac, Jim Haggerton of Tukwila; Des Moines City Manager Tony Piasecki represented their mayor, who was ill.

The mayors expressed the following concerns:

- Noise
- flights tracks over areas not formerly under flight tracks
- the use of land use planners on the technical committee when others might be a better representative
- Commissioners' attendance at public workshops
- Noise at the end of the runways with planes less than 1000 ft. high
- High use of the 3<sup>rd</sup> runway
- Use of Port of Seattle general fund now to help local communities instead of just waiting until the Part 150 process is completed and approved by FAA when money can be released by the FAA
- Hold POS Commission meetings in the community.

The commissioners' comments focused on the following key points:

- Needing to listen because we have a responsibility to be good partners
- Question about mitigation at end of runways; I responded that they should "buy them out because surely the study will support that."
- Acknowledgement that they need to strive to do more in terms of mitigation.
- With noise modeling, look into the future to see what an airport at capacity would look like.

The conversation was friendly and free-flowing. Apparently holding roundtables with different stakeholder groups is a new attempt by the Port Commissioners to fulfill their tasks as elected officials. This was a good beginning.

# Burien

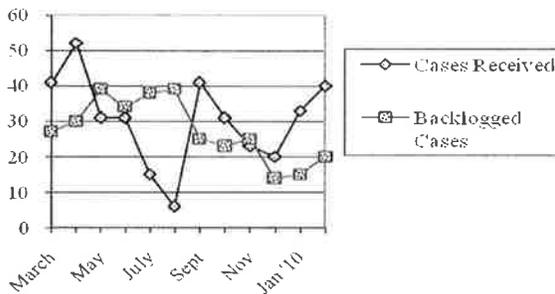

Washington, USA

## CITY OF BURIEN MEMORANDUM

**DATE:** March 2, 2010  
**TO:** Mike Martin, City Manager  
**FROM:** Scott Greenberg, Community Development Director  
**RE:** February 2010 Citizen Action Report

This report reflects the caseload for February and includes all backlog cases open as of February 28, 2010. As of that date, there were 47 open cases. 20 of the open cases are more than five weeks old and are considered backlog. There were 40 cases opened during the month of February; 24 cases initiated by staff/police, and 16 cases initiated by residents.

**CITY OF BURIEN  
AGENDA BILL**

<b>Agenda Subject:</b> Discussion on the Burien City Council's Position Regarding North Highline "Area Y".		<b>Meeting Date:</b> March 8, 2010
<b>Department:</b> City Manager	<b>Attachments:</b> <ul style="list-style-type: none"> <li>• Map of North Highline "Area X" and "Area Y"</li> <li>• <u>MOU – North Highline Annexation</u></li> </ul>	<b>Fund Source:</b> N/A <b>Activity Cost:</b> N/A <b>Amount Budgeted:</b> N/A <b>Unencumbered Budget Authority:</b> N/A
<b>Contact:</b> Jenn Ramirez Robson, Management Analyst		
<b>Telephone:</b> (206) 439-3165		
<b>Adopted Initiative:</b> Yes      No      X	<b>Initiative Description:</b>	
<p><b>PURPOSE/REQUIRED ACTION:</b> The purpose of this agenda item is to discuss the City's intention regarding the future of the so-called "Area Y" in the North Highline Unincorporated Area and consider whether Council wishes to formalize its intention by resolution.</p> <p><b>BACKGROUND (Include prior Council action &amp; discussion):</b> On August 18, 2009 residents in North Highline "Area X" (see attachment a) voted to join the City of Burien. That annexation will take place April 1, 2010. The City of Seattle is now considering whether it will advance its own annexation in the remaining unincorporated area to the north of Burien's annexation, known as "Area Y". Some Burien Council members have expressed a wish to make a formal statement clarifying the city's own interest in Area Y to provide residents there with some certainty about Burien's intentions prior to a Seattle annexation election.</p> <p>Council will recall that in the fall of 2008 representatives from Burien, Seattle, King County and fire districts #2 and 11 negotiated a non-binding memorandum of understanding (attachment b) setting out general parameters guiding agencies' conduct regarding annexation of North Highline. All parties except Seattle signed that agreement. Among other things, that MOU set out terms of non-interference by any agency in annexations until December 31, 2011.</p> <p><b>OPTIONS (Including fiscal impacts):</b></p> <ol style="list-style-type: none"> <li>1. Direct staff to draft a resolution clarifying Burien's intentions regarding annexation of "Area Y". If council takes this option, staff asks for specific direction regarding the elements of that resolution.</li> <li>2. Do not direct staff to draft a resolution clarifying Burien's intention regarding annexation of "Area Y" and do not take a formal position at this time.</li> </ol>

**Settlement Agreement**

We, KING COUNTY, CITY OF BURDEN, CITY OF SEATTLE, FIRE DISTRICT # 2 AND FIRE DISTRICT # 11

having participated in a mediation session(s) on Nov 6, Nov 20 & Dec 4, 2008 and being satisfied that we have reached a fair, legally binding and reasonable settlement, hereby agree as follows:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

The parties agree that they have the option of returning to mediation if problems arise later and they  agree/  disagree to do so.

We are unable to reach agreement on the following issues and these issues are not a part of our mediation agreement:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

The parties to this agreement have carefully reviewed this agreement and affirm that it accurately reflects each aspect of their own intent. The parties have been advised that if they wish they may have a legal or union representative review the agreement before signing.

The undersigned having mediated in sessions held on November 6<sup>th</sup>, November 20<sup>th</sup> and December 4<sup>th</sup>, 2008 hereby agree as follows:

1. We have reached agreement on the terms of a proposed Memorandum of Understanding (attached) for the annexation of North Highline.
2. We agree to seek prompt approval of the proposed Memorandum of Understanding by our respective elected officials.
3. We agree to carry out all the terms of the Memorandum of Understanding in good faith once adopted by our elected officials.

Memorandum of Understanding—North Highline Annexation

K.P. F.T.  
FT sub  
mm PSH  
AAJ  
WA  
JR  
MM

It is hereby agreed between the parties as follows:

1. All parties support the transition of the unincorporated North Highline (shown on the attached map) to city status in a timely and coordinated manner that, at a minimum preserves, if not increases existing local service levels.
2. All parties recognize and respect that the cities of Burien and Seattle each represent reasonable governance alternatives to be considered by North Highline residents.
3. All parties agree that the annexation of the North Highline communities to more than one city is the preferred option at this time given the diversity of community preferences and the significant cost of service associated with annexing the entire North Highline area communities.
4. All parties agree that the continued provision of fire protection services is essential to the residents and businesses in the North Highline communities and that all parties will work together to develop service agreements that ensure that an annexation will not result in a reduction of fire protection services to those areas of North Highline that are not immediately annexed by Burien or Seattle.
5. All parties agree to the terms of the attached Transition Framework to support preservation, and strive for improvement of current level of fire and safety services to North Highline and surrounding neighborhoods including Arbor Heights, North Burien, and unincorporated areas in South Park.
6. All parties agree that Burien and Seattle both will need fiscal support beyond the local municipal revenues generated in the unincorporated area if they are to provide municipal services to these communities in the immediate, mid, and long term basis. Accordingly, all parties support the provision of such additional revenues by the state to both cities in a manner that provides equal access by both cities to financial support for annexation. All parties agree to work together to pursue such revenues from the state for both cities. Such support shall include but is not limited to:
  - a. Publicly supporting the proposed legislation (attached),
  - b. Sign in and testifying in support of the proposed legislation at State Legislative hearings and meetings, and
  - c. Burien shall seek Suburban Cities Association support of the proposed legislation, and
  - d. Burien and Seattle shall seek support from the Association of Washington Cities, King County shall seek support from the Washington State Association of Counties, and Fire Districts 11 & 2 shall seek support from the Washington State Council of Fire Fighters.
7. All parties agree to support before the Washington State Boundary Review Board for King County a phased, coordinated annexation of large areas of North Highline where Burien can pursue annexation of area X, as shown on the attached map, and Seattle can pursue annexation of area Y, as shown on the attached map. All parties further agree this MOU shall be submitted as an exhibit in any proceedings related to the annexation of the North Highline area.
8. Burien agrees to pursue annexation only in area X and Seattle agrees to pursue annexation only in area Y until December 31, 2011.

9. Representatives of the jurisdictions that are a party to this agreement commit to not interfere with each others annexation elections attempts.
10. This agreement is effective until January 1, 2012.

## Transition Framework

This is a Transition Framework in bullet form that details the beginnings of the transition plan for fire and safety services in the North Highline PAA for potential annexation(s.)

1. All parties agree to support preservation and strive for improvement of the current level of fire and safety services to North Highline and surrounding neighborhoods including Arbor Heights, North Burien, and unincorporated areas in South Park.
2. All current Fire District employees who are displaced by annexation shall be transferred to Fire District 2 or the City of Seattle as appropriate.
3. Fire District 2 agrees to extend their existing contract with Fire District 11 through to January 1, 2012, regardless of annexation.
4. Fire District 2 and Fire District 11 also agree to expand their current service contract to a larger geographic area that includes: Area X (as shown in attached map), should the city of Burien successfully annex.
5. Fire District 2 and Fire District 11 both understand that Fire District 2 may need to reduce the rate of compensation in the new expanded contract to better reflect service costs.
6. Fire District 2 and Fire District 11 shall put into place the details that would guide a Lateral Hiring process.
7. In the event Seattle and Burien annex areas X and Y on the attached map, then King County shall secure for Fire District 2 an appropriate parcel of land sufficient to locate a new Fire Station that provides appropriate response time as agreed to by the County and Fire District 2. In the event Seattle annexes areas X and Y as shown on the map, then Burien shall secure for Fire District 2 an appropriate parcel of land sufficient to locate a new Fire Station that provides appropriate response time as agreed to by Burien and Fire District 2.
8. City of Seattle and Fire District 11 shall work collaboratively to optimize response times through reciprocal service arrangements in areas of need, for example in Arbor Heights and unincorporated areas in South Park.

1 | ANNEXATION TAX CREDIT

2 | November 25, 2008

Handwritten initials and signature: "JTB", "KI", "The", "WA" and a scribble.

3 |  
4 | AN ACT Relating to the local sales and use tax that is credited against the state sales  
5 | and use tax for cities to offset municipal service costs to newly annexed areas; amending  
6 | RCW 82.14.415; and providing an effective date.

7 | BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

8 | **Sec. 1** RCW 82.14.415 and 2006 c 361 s 1 are each amended to read as follows:

9 | (1) The legislative authority of any city (~~with a population less than four hundred~~  
10 | ~~thousand and which~~) that is located in a county with a population greater than six  
11 | hundred thousand that annexes an area consistent with its comprehensive plan required  
12 | by chapter 36.70A RCW(~~(s)~~) may impose a sales and use tax in accordance with the  
13 | terms of this chapter. The tax is in addition to other taxes authorized by law and shall be  
14 | collected from those persons who are taxable by the state under chapters 82.08 and 82.12  
15 | RCW upon the occurrence of any taxable event within the city. The tax may only be  
16 | imposed by a city if:

17 | (a) The city has commenced annexation of an area under chapter 35.13 or 35A.14  
18 | RCW having a population of at least ten thousand people prior to January 1, ~~((2010))~~  
19 | 2015; and

20 | (b) The city legislative authority determines by resolution or ordinance that the  
21 | projected cost to provide municipal services to the annexation area exceeds the projected  
22 | general revenue that the city would otherwise receive from the annexation area on an  
23 | annual basis.

24 | (2) The tax authorized under this section is a credit against the state tax under chapter  
25 | 82.08 or 82.12 RCW. The department of revenue shall perform the collection of such  
26 | taxes on behalf of the city at no cost to the city (~~and shall remit~~). The tax shall be  
27 | remitted to the city as provided in RCW 82.14.060.

28 | (3)(a) Except as provided in (b) of this subsection, the maximum rate of tax any city  
29 | may impose under this section shall be ~~((0.2 percent for the total number of annexed~~

1 ~~areas the city may annex. The rate of the tax imposed under this section is~~);

2 (i) 0.1 percent for each annexed area population that is greater than ten thousand and  
3 less than twenty thousand~~((The rate of the tax imposed under this section shall be))~~;

4 (ii) 0.2 percent for an annexed area ~~((which the))~~ population that is greater than twenty  
5 thousand.

6 (b) 0.85 percent for an annexed area population that is greater than eighteen thousand  
7 and the annexed area is annexed by a city that has officially designated the area a  
8 potential annexation area and the annexed area is, or was prior to November 1, 2008,  
9 officially designated as a potential annexation area by a city with a population greater  
10 than four hundred thousand, in a county with a population over one million.

11 (4)(a) The maximum cumulative rate of tax a city may impose under subsection  
12 (3)(a)(i) and (ii) of this section is 0.2 percent for the total number of annexed areas the  
13 city may annex.

14 (b) The maximum cumulative rate of tax a city may impose under subsection  
15 (3)(b) of this section is 0.85 percent and for the single annexed area the city may annex  
16 and the amount of tax distributed to a city under subsection (3)(b) of this section shall not  
17 exceed five million dollars per fiscal year.

18 (5) The tax imposed by this section shall only be imposed at the beginning of a fiscal  
19 year and shall continue for no more than ten years from the date the tax is first imposed.  
20 Tax rate increases due to additional annexed areas shall be effective on July 1st of the  
21 fiscal year following the fiscal year in which the annexation occurred, provided that  
22 notice is given to the department as set forth in subsection ~~((8))~~ (9) of this section.

23 ~~((5))~~ (6) All revenue collected under this section shall be used solely to provide,  
24 maintain, and operate municipal services for the annexation area.

25 ~~((6))~~ (7) The revenues from the tax authorized in this section may not exceed that  
26 which the city deems necessary to generate revenue equal to the difference between the  
27 city's cost to provide, maintain, and operate municipal services for the annexation area  
28 and the general revenues that the cities would otherwise expect to receive from the  
29 annexation during a year. If the revenues from the tax authorized in this section and the  
30 revenues from the annexation area exceed the costs to the city to provide, maintain, and

1 operate municipal services for the annexation area during a given year, the city shall  
2 notify the department and the tax distributions authorized in this section shall be  
3 suspended for the remainder of the year.

4 ~~((7))~~ (8) No tax may be imposed under this section before July 1, 2007. Before  
5 imposing a tax under this section, the legislative authority of a city shall adopt an  
6 ordinance that includes the following:

7 (a) A certification that the amount needed to provide municipal services to the  
8 annexed area reflects the city's true and actual costs;

9 (b) The rate of tax under this section that shall be imposed within the city; and

10 (c) ~~((b))~~ The threshold amount for the first fiscal year following the annexation and  
11 passage of the ordinance.

12 ~~((8))~~ (9) The tax shall cease to be distributed to the city for the remainder of the  
13 fiscal year once the threshold amount has been reached. No later than March 1st of each  
14 year, the city shall provide the department with a certification of the city's true and actual  
15 costs to provide municipal services to the annexed area, a new threshold amount for the  
16 next fiscal year, and notice of any applicable tax rate changes. Distributions of tax under  
17 this section shall begin again on July 1st of the next fiscal year and continue until the new  
18 threshold amount has been reached or June 30th, whichever is sooner. Any revenue  
19 generated by the tax in excess of the threshold amount shall belong to the state of  
20 Washington. Any amount resulting from the threshold amount less the total fiscal year  
21 distributions, as of June 30th, shall not be carried forward to the next fiscal year.

22 ~~((9))~~ (10) The tax shall cease to be distributed to a city imposing the tax under  
23 subsection (3)(b) of this section for the remainder of the fiscal year, if the total  
24 distributions to the city imposing the tax exceed five million dollars for the fiscal year.

25 (11) The following definitions apply throughout this section unless the context clearly  
26 requires otherwise:

27 (a) "Annexation area" means an area that has been annexed to a city under chapter  
28 35.13 or 35A.14 RCW. "Annexation area" includes all territory described in the city  
29 resolution.

30 (b) "Department" means the department of revenue.

1 (c) "Municipal services" means those services customarily provided to the public by  
2 city government.

3 (d) "Fiscal year" means the year beginning July 1st and ending the following June  
4 30th.

5 (e) "Threshold amount" means the maximum amount of tax distributions as  
6 determined by the city in accordance with subsection ~~((6))~~ (7) of this section that the  
7 department shall distribute to the city generated from the tax imposed under this section  
8 in a fiscal year.

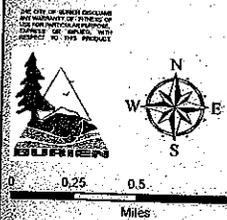

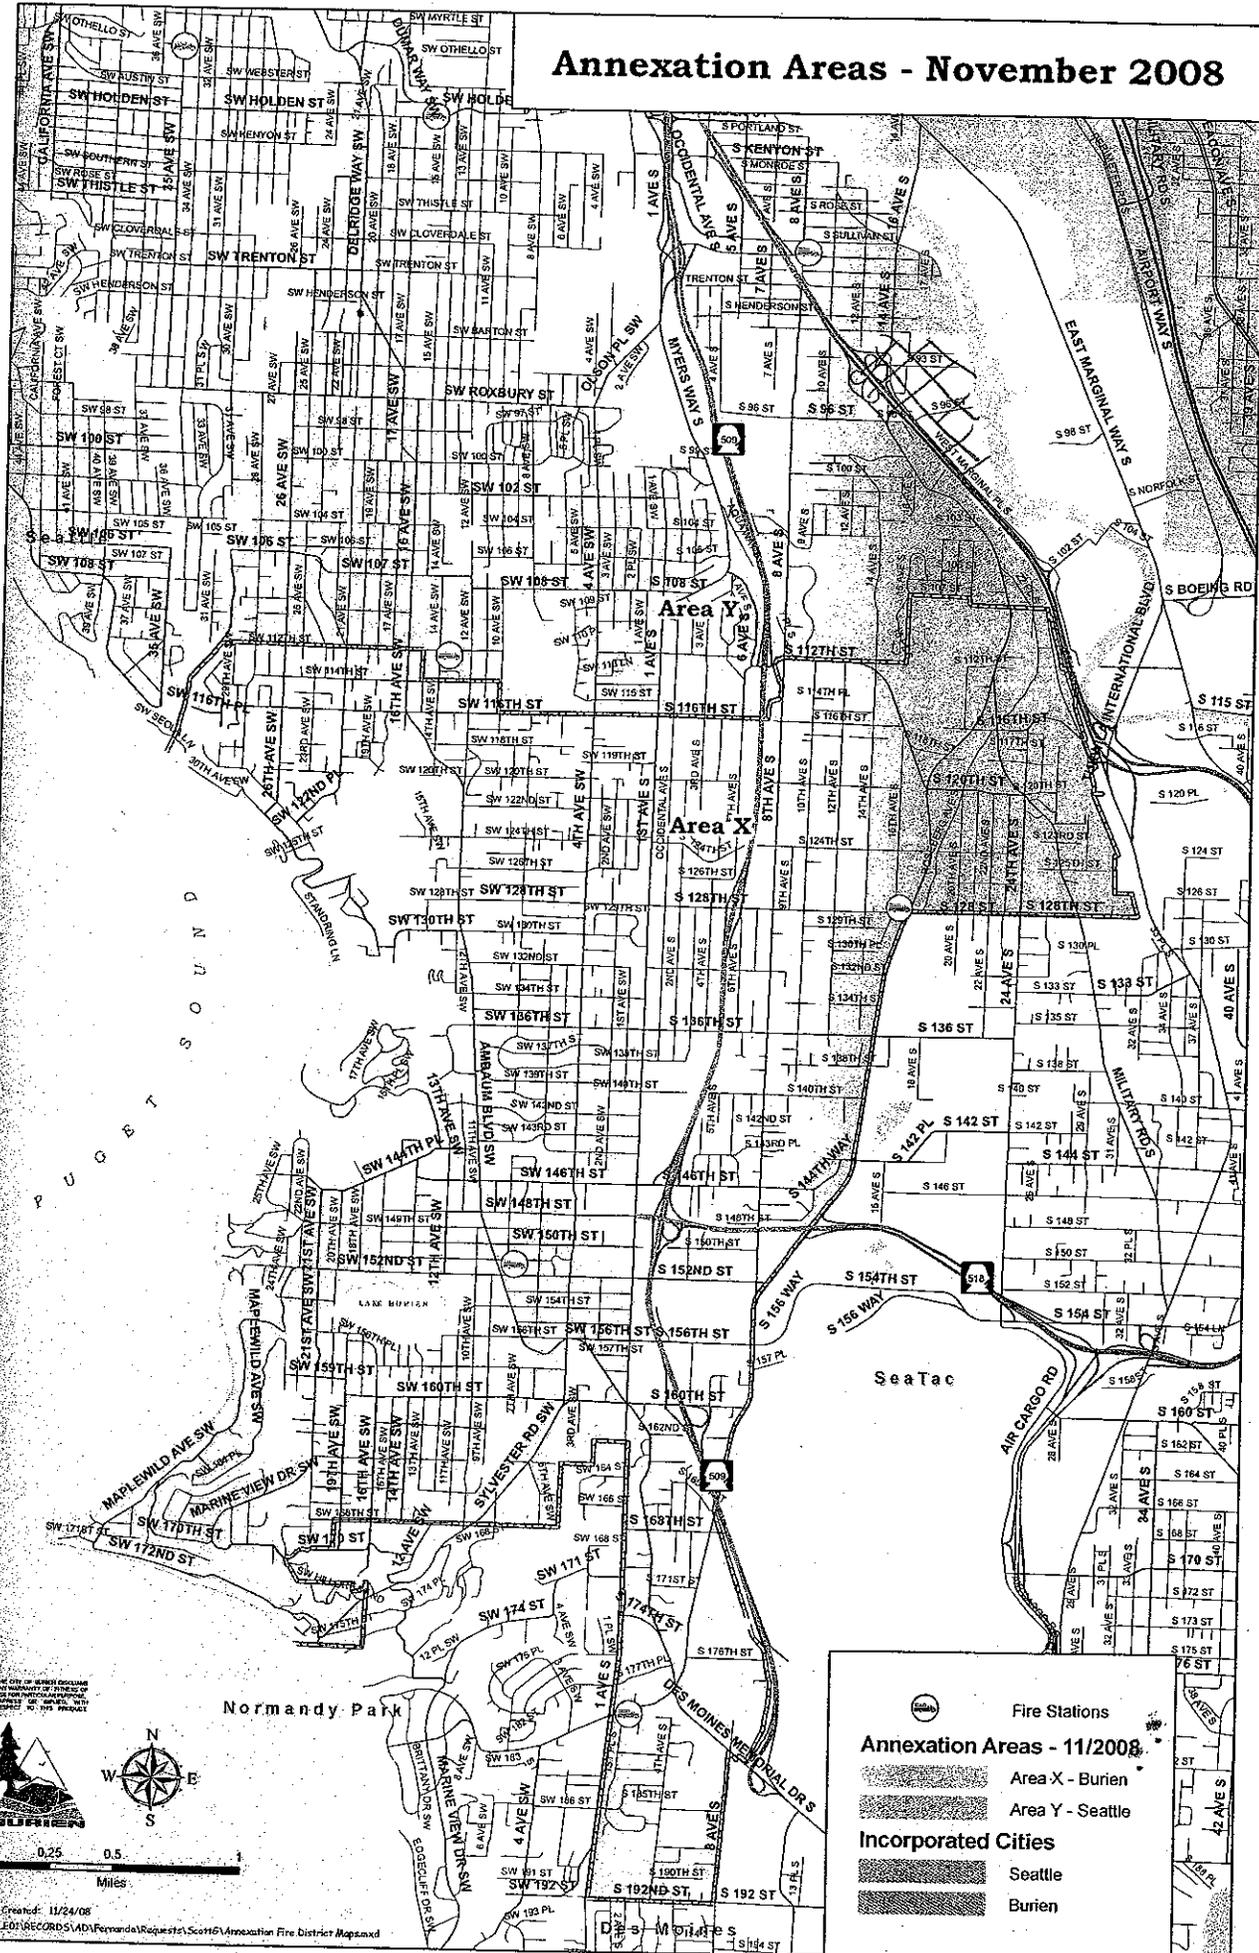

9 (f) "Potential Annexation Area" means one or more geographic areas that a city  
10 has officially designated for potential future annexation, as part of its comprehensive plan  
11 adoption process under the state Growth Management Act, Chapter 36.70A RCW.

12 (12) Subsection (3)(b) of this section takes effect July 1, 2011.

<b>Adopted Initiative:</b> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>		<b>Initiative Description:</b> Make annexation successful
<p><b>PURPOSE/REQUIRED ACTION:</b> The purpose of this agenda item is to discuss the current draft of the Governance Transfer Interlocal Agreement between King County and the City of Burien regarding the North Highline South Annexation Area.</p> <p><b>BACKGROUND (Include prior Council action &amp; discussion):</b> On August 18, 2009, residents of the North Highline South Area voted to become residents of the City of Burien. The City Council subsequently set an annexation effective date of April 1, 2010.</p> <p>The interlocal agreement provides the framework for the transition of local services from King County to the City of Burien, including the transfer of records, district court cases, permitting and code enforcement, and police services. In addition, the agreement provides for the transfer from King County to the City of Burien of roads- related properties and parks facilities within the annexation area. King County provides a variety of services to the City of Burien through contract arrangements. Contract services include police, district court, and roads. These contracts will be expanded as needed to accommodate service in this newly annexed area. Burien staff continues to work with King county staff to refine the agreement.</p> <p><b>OPTIONS (Including fiscal impacts):</b></p>
