Subject: Annexation MOU

Dear Council Members,

My wife and I have two comments regarding the MOU between Burien, King County and Seattle, regarding the annexation of North Highline. Item three states that annexation of NH to more than one city is the preferred option. We have been studying the annexation issue since 1995 and have never heard that the citizens of North Highline wish to be divided. The citizens have stated that if remaining unincorporated is not an option, they would rather be annexed to Burien.

Burien, Seattle and King County have stated that for any annexation to take place, there would be a vote of the people. We would like to see that wording placed in the MOU.

Thank you.
