Fire Alarms:

[BMC 15.20.190 IFC Section 907 amended – Fire alarm and detection.](#)

(2) IFC Section 907.1, System installation, is amended by addition of the following section:

907.1.4 System installation. Fire alarm systems shall be installed and maintained in accordance with this code by persons under the direct supervision of individuals that have factory training and certification on the system being installed. **Plans submitted for Fire Alarm System permits shall be prepared under the supervision of individuals possessing a NICET (National Institute for Certification in Engineering Technologies) Level III certification in Fire Alarm Systems; or shall be licensed by the State of Washington as a Professional Fire Protection or Electrical Engineer or certified by the State of Washington. Plans shall identify certification and/or licensing information.**

Expiration of Plan Review: Applications for which no permit has been issued may be canceled for inactivity, if an applicant fails to respond to the department’s written request for revisions, corrections, actions, or additional information within 90 days of the date of the request. Applications for which no permit is issued within 18 months following the date of application shall expire and all fees paid shall be forfeited.

I certify under penalty of perjury that the information furnished by me is true and correct to the best of my knowledge, and further, that I am the owner of this property or am authorized by the owner above to perform the work for which permit application is made.

I further agree to save harmless the City of Burien as to any claim (including costs, expenses, and attorney incurred in investigation and defense of such claim), which may be made by any person, including the undersigned, and filed against the City of Burien, but only where such claim is out of the reliance of the City, including its officers and employees, upon the accuracy of the information supplied to the City as part of this application.
